

DIMENSIONS
ALGONQUIN HIGHLANDS

PROCURING CANNABIS

Our Dimensions staff and therapists follow all regulatory guidelines and do not provide cannabis to our guests for their ceremonial experience.

For the optimal psychedelic experience, our team will guide guests in purchasing, measuring, and identifying the ideal strains of cannabis to vaporize the Plant Medicine. Our recommendations for specific strains of cannabis are key to the success of the Retreat experience. Every ASCEND or ELEVATE program held at Dimensions Algonquin Highlands includes the provision of guidance and education in making a psychedelic cannabis blend.

Our on-site guides provide ceremonial support for all guests to use their own cannabis while participating in a Dimensions Retreat.
